D. Sarah said she having a cat.

14. The _____ of false information on social media has become a major issue.

A. spread

B. boycott

C. donate

D. benefit

III. READING

Read the following passage and do as direct.

My school in the United States is planning to introduce regular lessons on healthy eating habits. But is it appropriate for schools to instruct students on what they should consume? One argument in favour of these lessons is that some young people in the US have poor diets, with excessive sugar intake and not enough vegetables. For example, they often consume too many sugary beverages, which can lead to dental problems. Additionally, some young people don't engage in enough physical activity, which can result in weight gain. However, others argue that students should focus solely on academic subjects while in school. They believe that it's not the school's role to teach children how to live their lives. Personally, I support the idea of having a few lessons on healthy eating, but not on a weekly basis. I suggest that this topic be incorporated into biology classes rather than being taught as a separate subject.

15. The school in the United States is planning to introduce regular lessons on study habits.

A. False

B. True

16. Some young people in the US have poor diets with excessive sugar intake and not enough vegetables.

A. False

B. True

17. Consuming too many sugary beverages can lead to dental problems.

A. False

B. True

18. Some people believe that it's not the school's role to teach children how to live their lives.

A. False

B. True

19. What is one argument in favour of introducing lessons on healthy eating habits in schools?

A. Some young people in the US have poor diets.

B. Schools should only teach academic subjects.

C. Students should focus just on academic subjects while in school.

D. It's not the school's role to teach children how to live their lives.

20. What does the author suggest about integrating lessons on healthy eating habits into the curriculum?

A. They should be taught as a separate subject.

B. They should not be taught at all.

C. They should be integrated into biology classes.

D. They should be taught on a weekly basis.

Choose the word (A, B, C or D) that best fits the blank space in the following passage.
