- D. all the time

31.

- A. I look forward to hearing from you soon
- B. I can't wait for the interview
- C. I'd better get going
- D. I must go now.

Read the following passage and choose the correct answer to each of the following questions.

Vocational learning opportunities play a critical role in skill development. In non- vocational studies, students often spend hours of their time exploring a variety of different subjects. Their class time tends to be only a few hours per week, as they will spend many hours in the library and on computers conducting research and writing papers that help them continue to build their theoretical knowledge in a variety of fields.

Even within their chosen discipline, they often spend a significant amount of time exploring theory and ideas used by other professionals in the industry. They have significantly fewer opportunities to actually put these ideas to work compared to students going through a vocational education situation. The skills for work and vocation are significantly limited for these students, as their theoretical knowledge does not have the work experience that helps them **transition** from a classroom study topic into their actual profession. This can sometimes cause challenges when the students graduate and transition into the working world.

However, for students in vocational education and training, this situation gets corrected. Students spend hours in the practical workshops each week learning **hands-on** practical skills related to their chosen field. Class time tends to increase in these schools, compared to their outside research time, because students spend more time exploring actual work opportunities that prepare them for their future jobs. They do not focus as much time on researching the theoretical as learning the practical.

Students also have courses that will help them use the highly specialised equipment that they need to do their jobs well. Rather than simply learning about this type of equipment or how it might be useful in the job, they actually have the chance to try out their own skills while still in school. When the time comes for them to transition to an actual job, they have the experience they need to begin the job right away. They will not have to spend time learning how to physically operate the equipment on the job, allowing them to become a valuable employee and build a career faster.

32. Which of the following can be the best title for the passage?

- A. Challenges in Moving from Theory to a Profession
- B. Benefits of Vocational Education
- C. Importance of Specialised Equipment in Vocational Learning
- D. Drawbacks of Non-vocational Studies

33. What do non-vocational students mainly explore within their discipline?

- A. practical skills
- B. research opportunities
- C. theories and ideas
- D. specialised equipment

34. The word '**transition**' in paragraph 2 is closest in meaning to _____.

- A. change
- B. act
- C. prefer
- D. show

35. The word "**hands-on**" in paragraph 3 is opposite in meaning to _____.

- A. theoretical
- B. physical
- C. manual
- D. practical

36. The word "**them**" in paragraph 3 refers to _____.

- A. opportunities
- B. schools
- C. skills
- D. students

37. From the passage, it can be inferred that _____.

- A. vocational students spend more time doing research than attending classes
- B. non-vocational students are better prepared for the workforce

C. vocational students have more practical experience before entering the workforce

D. non-vocational students find it easy to adapt to real jobs

38. According to the passage, which of the following statements is NOT TRUE?

A. Non-vocational students spend a lot of time studying theory and writing papers.

B. Vocational students have opportunities to practise using specialised equipment.

C. Non-vocational students are equally prepared for the workforce as vocational students.

D. Vocational students often have difficulties operating equipment when they get a job.

PART 4. WRITING

Choose the best arrangement of sentences to make a meaningful letter or text in each of the following questions.

39.

Dear Sir or Madam,
